

Sci-Tech Discovery Center Covid-19 Policies for Staff, Customers, and Camp Families

All Sci-Tech staff have been trained on screening, cleaning, and social distancing according to local, state, CDC (Center for Disease Control), ACA (American Camp Association), state and local guidelines. Please reach out with any further questions at info@scitechdiscovery.org.

Here is what Sci-Tech is doing to ensure your safety:

- Sci-Tech will make hand sanitizer, disinfecting wipes, soap and water, or similar disinfectant readily available and place readily visible signage to remind everyone of best hygiene practices.
- All tables, seats, and supplies to be used by guests and campers will be sanitized by staff before and after the program run time.
- Guests will be instructed in social distancing at each exhibit. Exhibits that cannot be reasonably sanitized between use will be closed.
- Exhibit pieces will be sanitized by Sci-Tech staff after each group uses the area and at the end of each day.
- At the moment, Sci-Tech will be limiting the number of people (staff, campers, and guests) allowed in the building at one time. This may affect the availability of bookings available. For more information feel free to contact us at 972-546-3050 or info@scitechdiscovery.org.

Here is what we are asking all guests and staff to do to ensure the safety of others:

- Guests and staff aged 3 and over will be asked by staff to wear a mask (over nose and mouth) in accordance with state and local guidelines.
- Everyone should sanitize hands as often as possible. Hand sanitizer and disinfecting soap will be provided throughout the museum.
- Guests not from the same household should remain at least 6 feet from other guests at all times.
- Guests and Staff experiencing Covid-19 symptoms may not enter Sci-Tech Discovery Center

Those who meet any of the following criteria may not enter the Sci-Tech Discovery Center:

- If you are experiencing any symptoms of COVID-19 (including fever, chills, cough, shortness of breath, headache muscle pain, or sore throat)
- If you or a close family member tests positive for COVID-19
- If you have come in contact with anyone that has a known or suspected case of COVID-19

Those who meet the criteria mentioned above may not return to Sci-Tech until:

- In the case of a person who was diagnosed with COVID-19, the individual may return when all three of the following criteria are met: at least 3 days (72 hours) have passed since recovery (resolution of fever without the use of fever-reducing medications); and the individual has improvement in respiratory symptoms (e.g., cough, shortness of breath); and at least 7 days have passed since symptoms first appeared; or
- In the case of a person who has symptoms that could be COVID-19 and does not get evaluated by a medical professional or tested for COVID-19, the individual is assumed to have COVID-19, and the individual may not return until the individual has completed the same three-step criteria listed above; or
- A person with known close contact to a person who is lab-confirmed to have COVID-19 may not return until the end of the 14-day self-quarantine period from the last date of exposure.
